

EasyGel liner with two types of fabric and distal attachment

ALPS EasyFlex Liner allows user ease of knee flexion through an unlimited restriction of stretch anteriorly. Posteriorly the fabric has 80% less vertical stretch which reduces the bunching in the popliteal region. The ALPS EasyGel contains antioxidants that help promote skin health, which also provides comfort and durability.

Features and Applications:

- Two types of fabric with different elasticity for easier knee flexion
- Distal ends are proportionate to the size of the liner for ease of donning
- Contains an antioxidant for use on delicate skin
- With distal attachment for pin and lock suspension systems

PRODUCT NO.	Description
EZF-XX-3	EasyFlex Locking Liner, 3mm uniform
EZF-XX-6	EasyFlex Locking Liner, 6mm uniform

XX indicates size. For details please see the sizing chart in the back page.
